

Too many software applications driving you nuts...?

The Capgemini 2014 Application Landscape Report questioned 1,000 CIO's from 16 countries about the applications their businesses use, and found **nearly half think they employ too many.**

73% of CIO's believe that 20% of applications share functions, and should be consolidated.

Contact CiMSO to consolidate the disparate elements in your software toolbox.
CiMSO ERP software integrates 90%+ of your applications into a single system.
Substantial Government grants are available to subsidise your expense....
